EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lawrence A. Stahl on 8 September 2009.

The application has been amended as follows:

IN THE CLAIMS

In Claim 1, page 2 (1 of 6), last line, after "downstream side", the phrase - - and a downstream end of the stacking portion - - has been added.

In Claim 5, line 3, "lever" has been changed to - - means - -.

In Claim 5, line 7, "lever" has been changed to - - means - -.

In Claim 7, line 2, "lever" has been changed to - - means - -.

In Claim 7, last line, "lever" has been changed to - - means - -.

In Claim 8, last line, "lever" has been changed to - - means - -.

In Claim 9, last line, "lever" has been changed to - - means - -.

In Claim 11, line 4, "lever" has been changed to - - means - -.

In Claim 11, last line, "lever" has been changed to - - means - -.

Claim 34 is has been cancelled.

Claims 1-2, 5, 7-11, 14, 18, and 33 are allowed.

Note: the blocking means in the claims has not been construed under 35 U.S.C. § 112, 6th paragraph since the "blocking means" is a structure.

The following is an examiner's statement of reasons for allowance:

Applicant's and Examiner's amendments have overcome the 35 U.S.C. §§ 102 and 103 rejections of the previous office action. Further, the independent claims overcome the prior art since they require that the blocking means separates from the downstream end of the stacking portion when the tray moves to the supplying position and that the blocking means moves integrally with the tray (support: movement of 210/210d/210e between FIG. 4 and FIG. 5).

The prior art of record does not disclose this combination of limitations. For example, Japanese Patent Publication No. 2001-301994 A to Kuge discloses a blocking means (see structure in figure 1, at leader 4) and tray 4 (the rest of the tray other than the blocking means), however, Kuge does not disclose that the blocking means separates from the downstream end of the stacking portion when the tray moves to the supplying position.

Further, in figure 6 (different embodiment than that of figure 1 embodiment) of Kuge, tray 9 moves, but the blocking means 37 does not move integrally with tray 9 (blocking means 37 and tray 9 move independently of each other; the movements depend on the position of sheets 8 as shown in figure 7).

Similarly, other prior references do not disclose all the limitations of the independent claim. Therefore, the claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gerald W. McClain whose telephone number is (571)272-7803. The examiner can normally be reached on Monday through Friday from 7:30 a.m. to 4:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick H. Mackey can be reached on (571) 272-6916. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
